MUNICIPAL WATER WORKS.

The works are in charge of a board of Water Commissioners consisting of (Frank E. Punderson, Chairman; Dudley B. Wallace and Mayor J. Albin Anderson, Jr.) Leland G. Carlton, supt; clerk and water registrar, Dennis F. Sweeney; Elbert E. Lochridge, chief engineer. Office, (319) City Hall. Service Building and Yard, 71 Colton. Office hours 9 a.m. to 5 p.m. Saturdays 9 a.m. to 12 m. Telephones: (applications and information) 6-2711: (work and trouble calls, day or night) 2-5188. The supply of water is taken from the Little River watershed (situated principally in the towns of Blandford, Granville and Russell) and by means of the following storage structures:

	Capacity in Gallons.
Borden Brook Reservoir (impounding)	2,500,000,000
Cobble Mt. Reservoir (impounding)	22,225,000,000
Intake Reservoir (diverting)	40,600,000
Sedimentation Basin (before filtering)	38,700,000
Provin Mountain Reservoir (after filtering)	29,280,000
Total	24,833,580,000

The former supply from impounding reservoirs in Ludlow and Belchertown is also retained at present for towns of Ludlow and Wilbraham and for emergency uses, and with its storage capacity of 1,434,218,000 gallons make an aggregate capacity of 26,267,798,000 gallons.

Range of pressure on mains for day and night, as follows: Main street level, maximum, 147 pounds, average, 140 pounds. Hill section level maximum 87 pounds, average, 80 pounds.

The entire supply of city water to any premises is furnished by meter only and at meter rates; the necessary meters are installed by the water works at expense of the consumers for the initial cost of the meters and connections only.

The cost of ordinary care and repair of all meters is borne by the water works; the cost of unusual repairs (necessitated by freezing, hot water, etc.) due or attributable to any carelessness or neglect on the part of the consumer, will be charged to the consumer or owner.

METER RATES.

(Subject to all rules and regulations)

For each 100 Cubic feet (748 gallons) of water as registered or estimated for each independent premises the rates shall be as follows:

For the first 5,000 cubic feet or less per quarter, at 20 cents per 100 cubic feet (about 30 cents per 1,000 gallons).

For all excess over the first 5,000 feet per quarter, at 5 cents per 100 cubic feet (about 7 cents per 1,000 gallons).

Where the aggregated total use for one independent premises amounts to 750,000 cubic feet or more in any one quarter, the entire quantity will be charged at 5 cents per 100 cubic feet.

Subject to the following minimum quarterly charges:

(a) Single dwellings and double houses or blocks (of two or more ground-floor single tenement sections), each tenement not less than $2.00 per quarter.

(b) Tenement houses, apartment blocks, etc., each tenement or apartment not less than $1.50 per quarter.

(c) Business blocks, manufactories, and other industrial plants, elevators and motors, each bill for each independent premises, not less than $2.50 per quarter.

Special for Elevator Uses—Where the total or aggregated quantity for operating one or more elevators on each independent premises amounts to 33,000 cubic feet or more in any one quarter, and is metered and billed independently of all other uses, the entire quantity will be computed at 5 cents per 100 cubic feet; but no bill hereunder shall be rendered at less than $25.00 per quarter.

Business and industrial buildings of more than one section, and adjoining or adjacent buildings, under one independent ownership as a plant (if not separated by a street or by any other buildings or premises under another ownership) may be considered as one independent premises, and as such, subject to the computing and billing of the foregoing meter rates. In all other cases the supply through each service and meter shall be computed and charged as separate and independent bills.

Each quarterly period will be computed and charged for independently of any other quarterly period and the rates therefore shall be paid accordingly.

When a meter from any cause fails to register the consumption of water the quantity shall be estimated and the charge made based upon the registration by the meter when in order or upon the registration for corresponding prior quarter or period.

Builders' Uses—Where water is to be used in the construction of ordinary framed buildings, or for small building operations where the use may be easily estimated, the meter installation may be temporarily deferred, as an accomodation to the owner or builder, until the completion or occupancy of the building, and a nominal estimated flat rate may be charged for builders use of water to the owner of the property who will be held responsible for such use and the payment of such charge.

The Water Registrar and the Supt. shall determine all cases where the foregoing provisions may apply, and each case shall be considered independently of any other, but no such estimated charge shall be less than $1.00.

Miscellaneous and Temporary Uses—In certain cases of miscellaneous and temporary uses of city water, where the quantity used may be small, the charge for same may be estimated instead of being shown by meter, at the discretion of the Water Registrar and the Supt.

The water Registrar shall have the right to require an advance deposit as security for the payment of water bills, when he shall consider it for the interest of the city to do so; such deposit not to exceed a year's minimum rate for the property to be supplied or a reasonable estimate of the probable annual amount of such bills.

All bills due the City on account of the Municipal water works shall be payable at the office of the City Collector, Room 137, Municipal Building, Court and Pynchon streets within twenty days after the same are rendered and become due.

Inquiries and claims for correction should be made at the office of the Water Registrar, Room 319, Municipal Building.

Delinquent water bills are a lien on real estate.

SCHOOL DEPARTMENT.

School Board—James L. Mardieso, Chairman; At large, Chester S. McGown; Ward 1, Angus A. Barnett; Ward 2, Theodore V. Quinlivan; Ward 3, Ralph W. Ellis, Jr.; Ward 4, Troy T. Reference Advertising

HE who buys space in the City Directory buys advertising permanency. Every day thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.

The Price & Lee Company

Members Association of North American Directory Publishers

New Haven, - Connecticut

BUYERS' DIRECTORY

It's Practical Uses

To give permanence to paid-for publicity.

* * *

To detail more fully the products and service of industrial, commercial, financial and professional activities.

* * *

To form a quality background by the better use of type and paper.

* * *

To create a department of those in each community whose stability has built the foundation upon which progress has been attained. (The length of this advertising service automatically eliminates investments for space by those who question their ability to continue business activity.)

* * *

To safeguard the buyer by eliminating statements that mislead, or do not conform to business integrity.

* * *

85 ELM STREET WEST SPRINGFIELD

BANKING SERVICE

A MUTUAL SAVINGS BANK

INCORPORATED 1852

Today there is one thought, one concept — SECURITY — No price appears too great to preserve it.

That is the way we have looked at it in safeguarding our depositors' savings. That is the kind of banking service we are offering to savers.

Our Record for Protection is a long one — over 92 years.

ASSETS

UNFAILING GAS SERVICE since 1848

Over 96 years of uninterrupted GAS SERVICE is the record of this company. Through 5 wars through good times and bad through storm and hurricane, our service to homes and to industry in the Greater Springfield Area has been constant and sure.

Today, in the face of material and manpower shortages with increased demands from our city's War Production Factories, we are ever mindful of our responsibilities to maintain the supply of GAS SERVICE at all times.

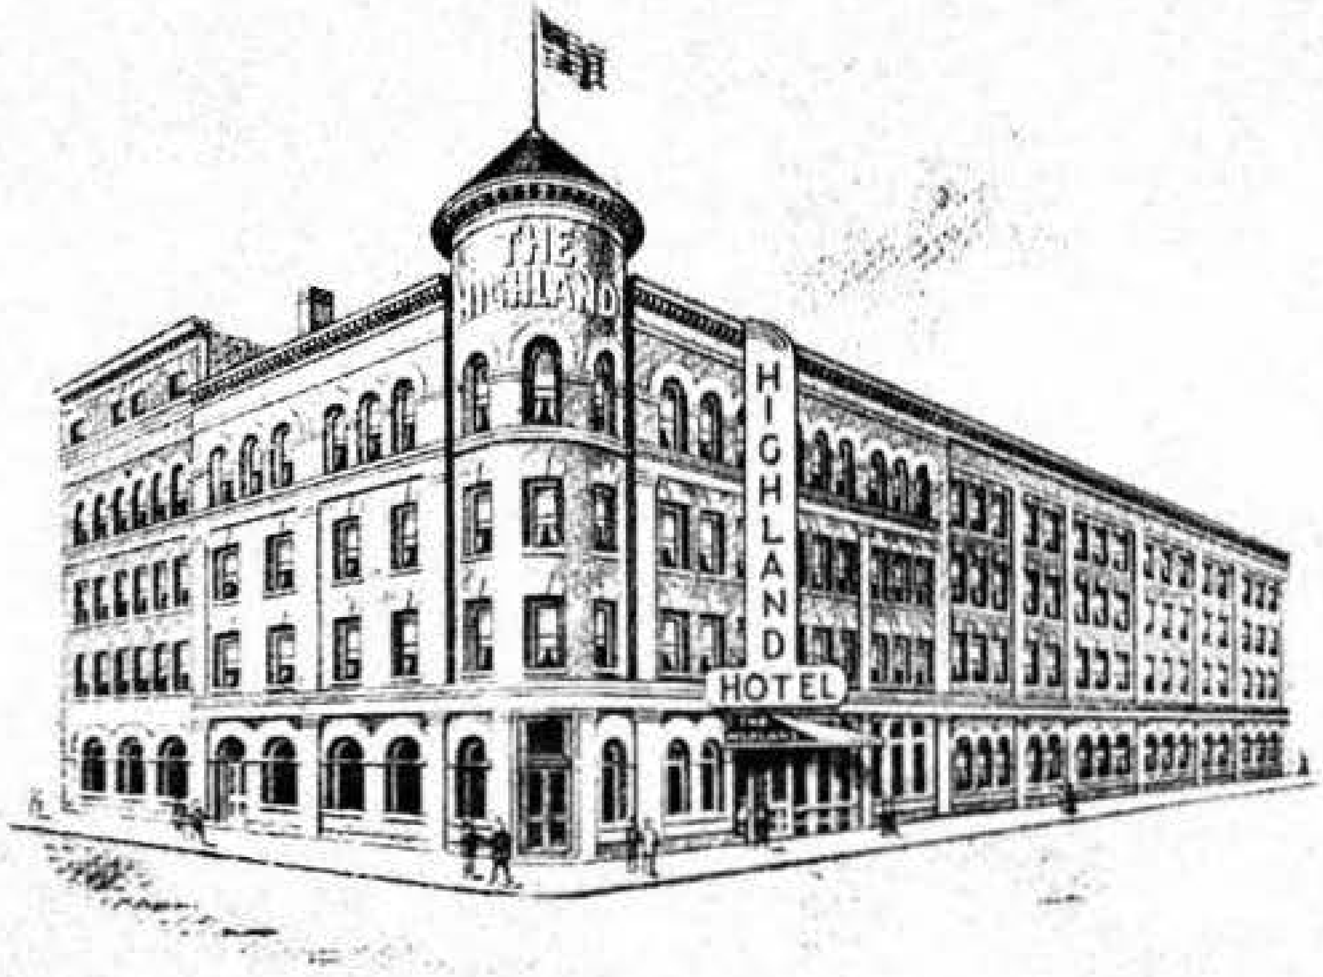
HIGHLAND HOTEL

"Every meal a pleasant memory" ©



In the Center of Springfield

AMERICA'S GREATEST LOBSTER HOUSE

Famous for its welcome, its hominess and its wonderful Kitchen.

GARAGE **PARKING SPACE**

Newly Decorated American Room for a Banquet up to 125 Persons
Large Air-Conditioned Roman Room for Larger Meetings and Parties
Before Making Final Arrangements for Your Banquet, Inspect Our Facilities, Services and Prices
Dining Rooms Open From 7 A. M. to Midnight

The Highland owes its popularity to the really outstanding quality of its foods and beverages. People know that here they will find — always — delicious dishes and specialties, perfectly cooked and served in pleasant surroundings at *sensible prices.*

The men's Bar is known for its well kept draught beers and ales. The Highland cellars are well stocked with excellent wines, imported liqueurs and cordials, rare old bonded pre-prohibition whiskeys and leading brands of champagne.

The Sign Over Your Door

Is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it would it interest you?

THE CITY DIRECTORY

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory properly indexed under all headings where he might look for you.

To be properly registered costs less than to be left out

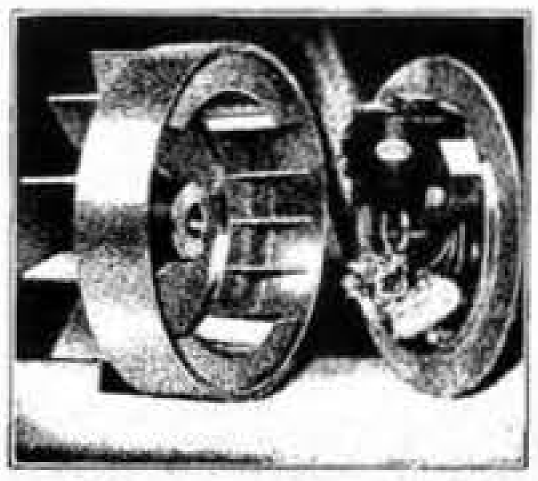
WICO MAGNETOS

THERE ARE SEVERAL DIFFERENT BASIC MODELS OF WICO MAGNETOS and hundreds of variations of these models. New models as well as new variations of old models are constantly being developed to meet the requirements of individual engine manufacturers. The magnetos pictured on this page are typical of those currently being used by industry, agriculture, and the armed forces.



SERVICE WHERE AND WHEN NEEDED is always important for any highly technical piece of mechanical equipment. In times like these it is vitally so. Today, virtually all new Wico magnetos go into military combat service. It is of major consideration, therefore, to farmers and all civilians that nearby service be available for maintenance of present equipment. That is why the far-flung Wico service organization is now of greater importance than ever.

Service men are supplied up-to-the-minute information on technical service procedure through frequent and regular distribution of bulletins and supplements to Wico's carefully prepared Master Service Manual.

A Directory of all authorized Wico Service Stations will gladly be sent on request.

WICO ELECTRIC COMPANY

WEST SPRINGFIELD, MASSACHUSETTS

Motorcycles

AMERICA'S PIONEER MOTORCYCLE

Product of one of Springfield's first industries, a continuing development of major improvements since 1901 has kept Indian motorcycles "first" in the motorcycle field. With brilliantly powerful engines, streamlined design unapproached by others, and exclusive "Spring Frame" riding ease and comfort, Indian brings to rider sportsmen all the thrills of the open road makes motorcycling an even greater and more economical travel pleasure.

As the first police vehicle, Indian motorcycles have served Police departments since 1905. A modern steed of unmatched performance, Indian police motorcycles are the ready servant of the motorcycle officer, providing the mobility needed to handle today's traffic problems.

For business and industry, the economy in operation of Indian motorcycles has been re-emphasized during recent years. With the accent on conservation Indian sidecars and side-vans units built during wartimes under War Production Board Authority maintain prompt delivery of essential materials.

Serving the Armed Forces, Indian has supplied motorcycle equipment for all of the Allies and in addition, a number of key assemblies for Aircraft and Ordnance.

Meanwhile, Indian progress continues with new motorcycles to come that will uphold Indian's traditions as "America's Pioneer Motorcycle".

BLUEPRINT *for* MANPOWER

Siewek Methods utilize to the fullest extent existing tool engineering manpower.

Engineering talent organized as a mobile force can be expended on the highest priority program dictated by the demands of war.

When the urgency of a specific program is lessened, this mobility enables Siewek to throw its energies into the next highest rated program.

Developed in full measure by war production requirements, this facility of action, plus the experience gained through many diversified programs, has created in Siewek a valuable war production machine.

WHAT IS A REALTOR?

"REALTOR" is the name adopted by the National Association of Real Estate Boards as describing an active member of any one of the more than five hundred Boards in this country that are affiliated with the National Association, and have subscribed to the Association's "CODE OF ETHICS." The Courts have upheld the claim that this title cannot be used by anyone who is not a member of such a Board. Therefore, this term, used instead of "REAL ESTATE AGENT" is becoming increasingly known throughout the country as a synonym for correct methods of transacting the real estate business.

CLASSIFIED DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information—as to any firm or individual in business, classified according to their business or profession.

Information—as to Associations, Clubs and Societies, when and where they meet and the name and address of their secretary.

Information—as to Churches, their location and pastor together with the pastor's address.

Information—as to where to obtain a list of prospects for your products or service.

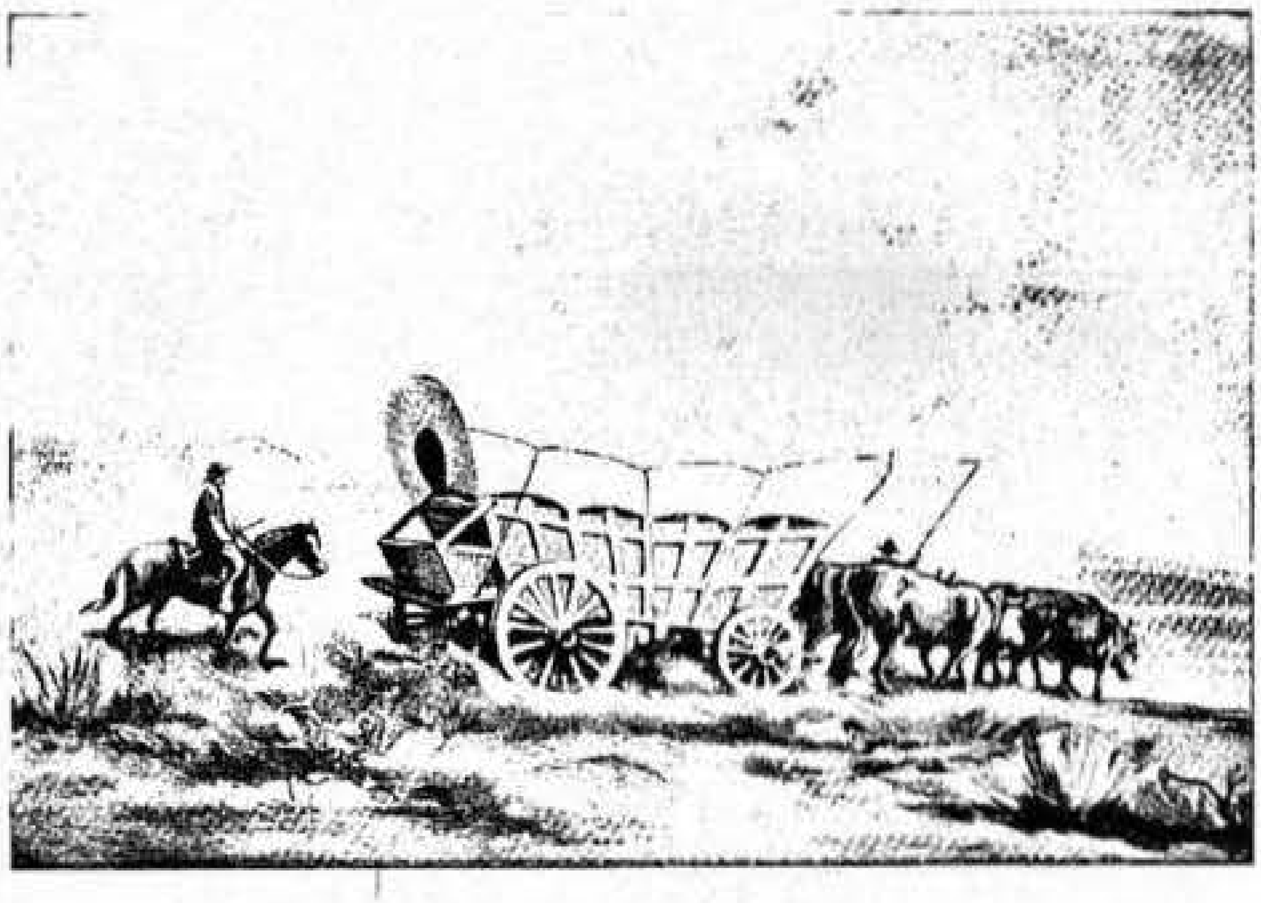
Information—as to where to obtain any service that your community has to give.

Information—as to where to buy advantageously when competitive bids are required for any given service or product.

—Finally—

If your neighbor has it to sell, give him your business.
Like consideration from your neighbor adds prosperity to both.

THE PRICE & LEE CO.



1849 1945

Common Sense

About City Directory Circulation

The true value of advertising circulation is *circulation consulted.*

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days,* therefore—

1000 x 3½ x 305 =

1,067,500

Consultations or

Circulation Consulted

Free Service Directories of various Cities in the United States and Canada are maintained for your convenience at the
